

# iData K8 Pro Ultra-rugged Android Terminal

## Industrial-grade durability for long-lasting reliability

iData K8 Pro is an ultra-rugged Android mobile smart terminal with comprehensive upgrades based on previous iData K8: the CPU is upgraded to 2.45GHz, the system is updated to the smoother and more energy-efficient Android 14, and it is updated with a faster and more stable Wi-Fi 6 module. Universal K8 series accessories are available, further avoiding additional replacement costs. Two different keyboard layout versions are available, which can be selected according to the actual needs of the enterprise. K8 Pro Good performance, reliability and long product life cycle can make your enterprise gain long-lasting use benefits after one purchase. It can be widely used in large warehouses, freight centers, manufacturing plants and other heavy-duty workplace scenarios.

### Extremely long product life cycle

From the processor and memory to the system and support for subsequent Android, the device takes into account the needs of future applications, allowing your organization to upgrade the system and applications without having to invest more in hardware, allowing the device to have a longer lifecycle.

### Industrial-grade rugged design for complex environments

Both the superb protection of the device and the large 6700mAh battery make the device more durable, and the device can easily face unexpected drops during forklift operations, as well as the demands of long shifts on the device's endurance.

### Improve operational efficiency in large warehouses and manufacturing plants

21.4 meters ultra-long-distance scanning, so that the forklift operation is more convenient, large warehouse forklift operation, workers can quickly scan to the distant shelves or goods bar code, Bluetooth 5.1 can be connected to various types of headphones, printers, rich in all kinds of extended applications.
